

How to find which MDM the Apple TV is on

How to find which MDM the Apple TV is on

Go to Settings on Apple TV

Image not found or type unknown

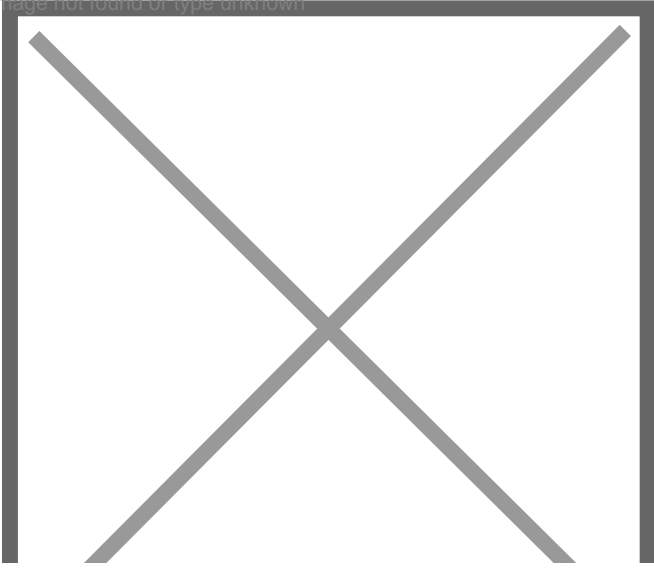

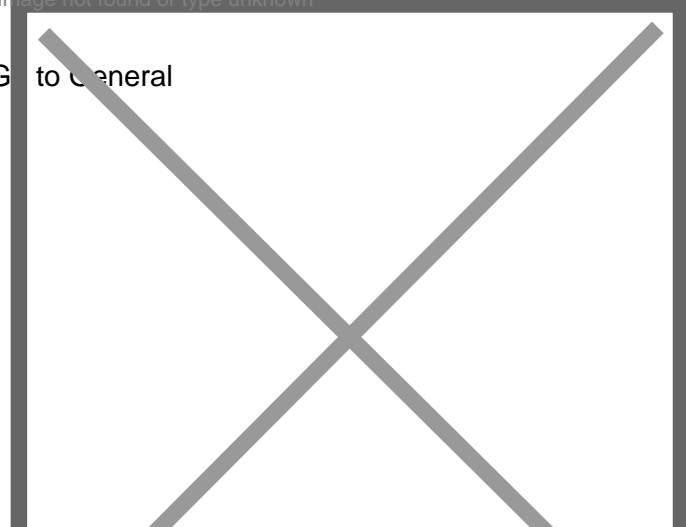

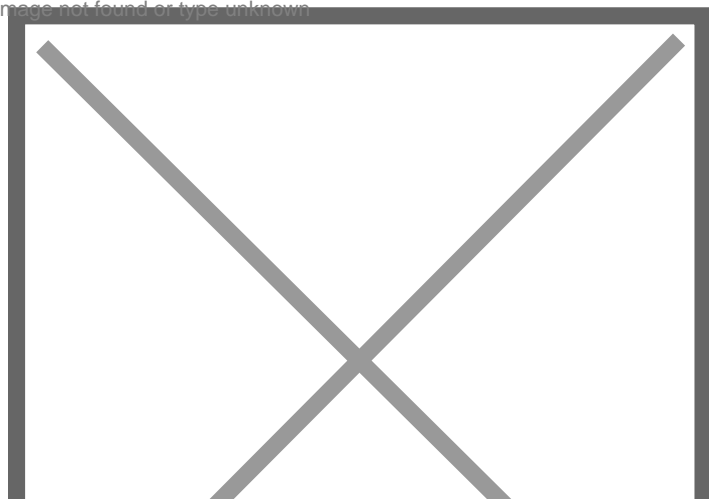

Image not found or type unknown

Go to General

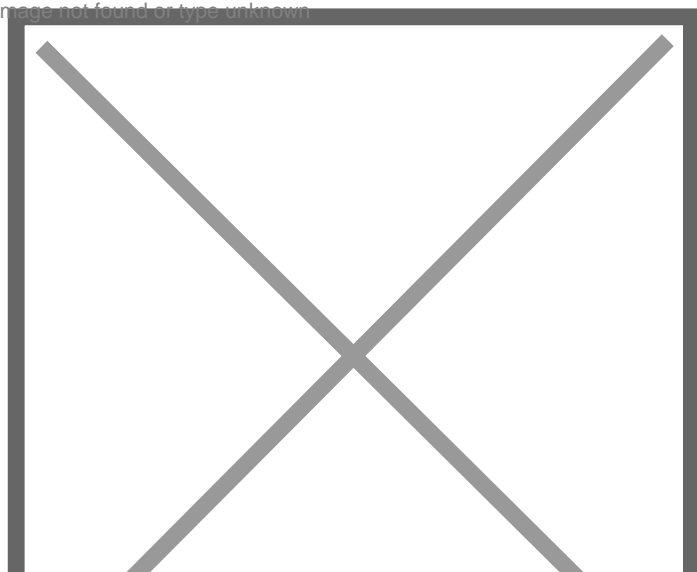

Go to Device Management

Image not found or type unknown

MDM will show here

Image not found or type unknown

If Mosyle is here nothing else needs to be done.

If Filewave shows the Apple TV needs to be reset- you can use Apple Configurator or iTunes.
