# How to use Google Docs

Google Docs is an online word processor that lets you create and format documents and work with other people. See our [top five tips for Google Docs](#).

## Step 1: Create a document

To create a new document:

1. On your computer, open the Docs home screen at [docs.google.com](https://docs.google.com).
2. In the top left, under "Start a new document," click **New**.

You can also create new documents from the URL [docs.google.com/create](https://docs.google.com/create).

## Step 2: Edit and format

To edit a document:

1. On your computer, open a document in [Google Docs](#).
2. To select a word, double-click it or use your cursor to select the text you want to change.
3. Start editing.
4. To undo or redo an action, at the top, click Undo or Redo .

Note: To edit a document on a touchscreen device, like a Pixel Book, double-tap the document to start typing.

You can add and edit text, paragraphs, spacing, and more in a document.

- [Format paragraphs or font](#)
- [Add a title, heading, or table of contents](#)

## Step 3: Share & work with others

You can [share files and folders](#) with people and choose whether they can view, edit, or comment on them.

# Docs cheat sheet

## 1. Edit and add styles to your text.

Formatting text options such as alignment and indentation

## 2. Work with different versions and copies of your document.

**Make a copy:** Create a duplicate of your document.

**Download as:** Download your document in other formats, such as Microsoft® Word® or Adobe® PDF.

**Email as attachment:** Send a copy of the document to people. You can change the format.

**Version history:** See all the changes you and others have made to the document or revert to earlier versions.

**Publish to the web:** Publish a copy of your document as a webpage, or embed your document in a website.

Click "File" for options to work with different versions

## 3. Enhance your document by adding features.

**Image:** Insert an image from your computer, the web, Drive, and more.

**Table:** Select the number of columns and rows to create a table.

**Drawing:** Create pictures, flowcharts, diagrams, and more.

**Link:** Add a link to a webpage or a header or bookmark in your document.

**Chart:** Add different types of charts, or add a chart from Sheets.

**Bookmark:** Add shortcuts to specific places within your document.

**Table of contents:** Create an autogenerated table of contents that links to each heading (where you’ve applied heading styles).

Insert items using the menu

4. Click Share to share your document and then choose what collaborators can do. They’ll also receive an email notification.

# Change page setup of a Google Doc

1. On your computer, open a document in [Google Docs](#).
2. In the toolbar, click **File** and then **Page setup**.
3. Go to the setting you want to change:
  - Orientation
  - Paper size
  - Page color
  - Margins
4. Make your changes.
5. Click **OK**.
6. Optional: To make new documents open with the settings you chose, click **Set as default**.

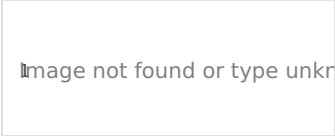

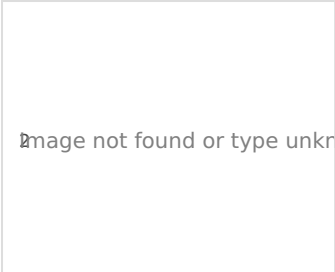

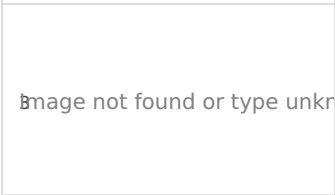

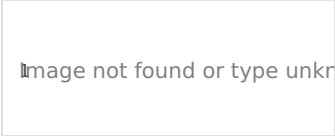

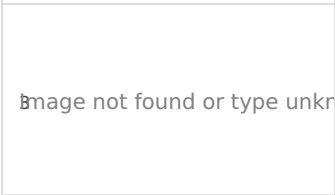

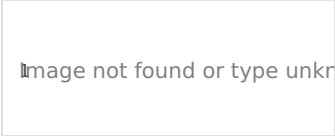

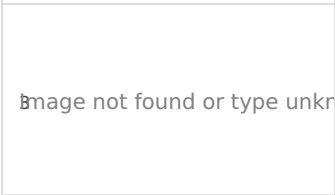

# Switching to Docs from Microsoft Word
