Access version history in SharePoint or OneDrive

In Docs...

Access version history in Docs

- “
1. Select **File** and then **Version history** and then **See version history**.
 2. Click a time stamp to see a previous version of the file.
 3. (Optional) Do any of the following:

- “
- To make a previous version visible on the page, click the active version, at the top,

Track changes in a document

In Docs...

Make suggestions and comments

Make suggestions in a document

1	In the top corner, make sure you're in Suggesting mode, which may also appear as Suggest.
2	To suggest an edit, simply begin typing where you think the edit should be made in the document. Your suggestions appear in a new color, and text you mark to delete or replace is crossed out (but not actually deleted until the document owner approves the suggestion).
3	The document's owner will receive an email with your suggestions. When they click any suggestion, they can Accept Checkmark or Reject Close it.

Suggest edits

Add and assign comments in a document

- “
1. In [Docs](#), [Sheets](#), or [Slides](#), select the text you'd like to comment on.
 2. Click Add comment
Add comment.
 3. Enter your comment in the box.
 4. (Optional) To direct your task or comment to a specific person, enter a plus sign (+) followed by their email address. You can add as many people as you want. Each person will get an email with your comment and a link to the file.
 5. (Optional) To assign the comment to a specific person, check the **Assign to** box.
 6. Click **Comment** or **Assign**.
