How to Backup Your Windows Computer with Microsoft OneDrive

[CLICK HERE](#) to see a video on how to do this, or follow the steps below.

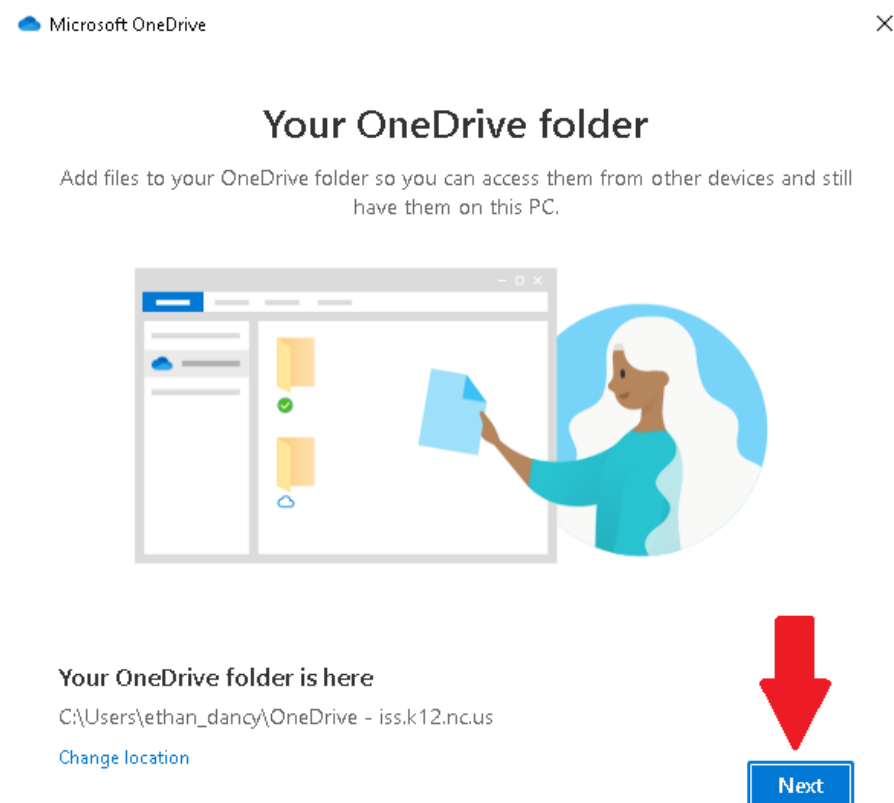

Step 1. Go to Start, and search for OneDrive. Click on the OneDrive App

Step 2. Sign into the Microsoft Account with Your ISS Email Address & Password

Step 3. Click Next on the following screen on where to store your OneDrive Folder

Step 4. On the next screen, you can choose which folders on your computer that you want to backup. You can change these later if you want to.

Back up your folders

Selected folders will sync in OneDrive. New and existing files will be added to OneDrive, backed up, and available on your other devices even if you lose this PC. [Learn more.](#)

Space left in OneDrive after selection: 1,018 GB

 [VSDC Free Video Editor](#).lnk and 2 other files in the selected folders have the same name as files already in OneDrive. For each duplicate, we'll add '-Copy' to the end of the name, and both items will be available in OneDrive.

Click next on the following screens, and choose "Later" on the screen that asks you about the mobile app unless that is something that you are interested in.

Once these steps have been completed, the folders that you chose will backup to your Microsoft OneDrive Account. You can verify that your files are backing up by going to <https://onedrive.live.com/about/en-us/signin> and signing in to your Microsoft Account using your ISS Email Address and Password.

How to Backup Your Computer with Google Drive

1. On your computer, go to drive.google.com. and sign in with your ISS Email Address and Password
2. At the top left, click **New** and then **File Upload** or **Folder Upload**.

3. Choose the file(s) or folder(s) you want to upload. **HINT:** You can click on one file, and then press the keys **CTRL + A** to select all of the files, or hold the **CTRL** key and select multiple files at once. After the folders & files are selected, click **Open**.
