Step 4. On the next screen, you can choose which folders on your computer that you want to backup. You can change these later if you want to.

Х

Click next on the following screens, and choose "Later" on the screen that asks you about the mobile app unless that is something that you are interested in.

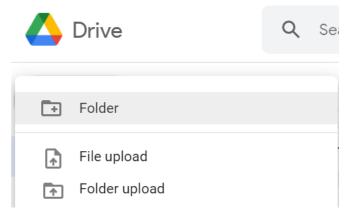

×

Once these steps have been completed, the folders that you chose will backup to your Microsoft OneDrive Account. You can verify that your files are backing up by going to https://onedrive.live.com/about/en-us/signin and signing in to your Microsoft Account using your ISS Email Address and Password.

How to Set up OneDrive Sync on Macbook

1. Install OneDrive for Mac.

Important: If you are currently using the OneDrive Mac Store app, you must first uninstall it before installing the latest build of the sync app.

- 2. If you're not signed in to OneDrive with any account, start OneDrive to connect to your ISS Account.
 - 1. Start OneDrive by opening Finder, or Launchpad to launch **OneDrive**. This starts OneDrive Setup.
 - 2. Enter your ISS Email & Password and then select **Sign in** to set up your account. Screenshot of the first page of OneDrive Setup
 - 3. When setting up your OneDrive, it has a default location set.
 - 4. When you see the **This is your OneDrive folder** screen, you'll now see a path to the folder you selected. Click **Next** to continue.
