

# How to Set up OneDrive Sync on Macbook

## 1. Install OneDrive for Mac.

**Important:** If you are currently using the OneDrive Mac Store app, you must first uninstall it before installing the latest build of the sync app.

## 2. If you're not signed in to OneDrive with any account, start OneDrive to connect to your ISS Account.

1. Start OneDrive by opening Finder, or Launchpad to launch **OneDrive**. This starts OneDrive Setup.
2. Enter your ISS Email & Password and then select **Sign in** to set up your account.

3. When setting up your OneDrive, it has a default location set.

## 4. When you see the **This is your OneDrive folder** screen, you'll now see a path to the folder you selected. Click **Next** to continue.

- You're done! Click **Open my OneDrive folder** to see your files sync to your folder.

You can find OneDrive up in your Menu bar. You'll have a cloud icon for every account you've connected to OneDrive.
