

Turning off the private MAC address on your Apple Device

1. Go into Settings.
2. Select Wi-Fi.
3. Next to the SSID that you are connecting to, select the I with the blue circle.
4. Turn off Private Wi-Fi Address.
5. Select Continue to acknowledge the warning about the temporary interruption of your Wi-Fi connection.
6. The updated Wi-Fi address is the MAC address of your phone.
