

How to Forget a Network on Mac

How to Forget a Wireless Network on Mac

1. Click the **Wi-Fi** icon in the top-right corner of the Mac menu bar.

2. Select **Open Network Preferences...**

3. Click **Advanced**.

4. Click a network in the list to select it. (To select multiple networks, hold the **Command** key while clicking them.) You can also drag networks higher up the list to prioritize them over other local networks.

5. Click the **minus** ("-") icon below the list to forget the selected network.
