

# How to Install Zoom from Filewave

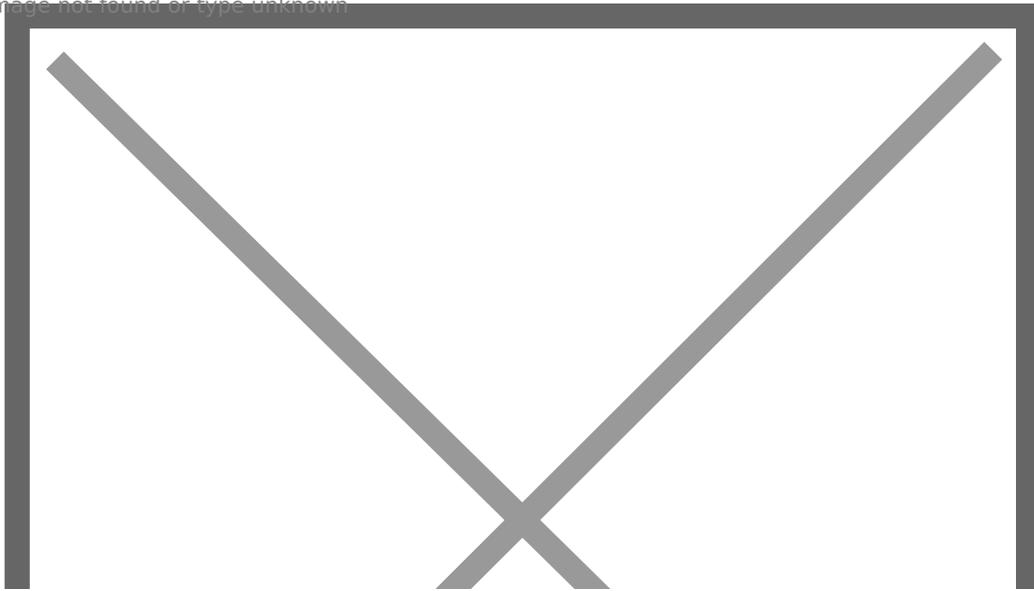

<https://drive.google.com/file/d/187IntLR4XUmFohyFy2qy9U8XhOY95jQg/preview>

Installing an App From the Filewave Kiosk

- 1.

Click on the Filewave Kiosk icon (red flag in upper right corner)

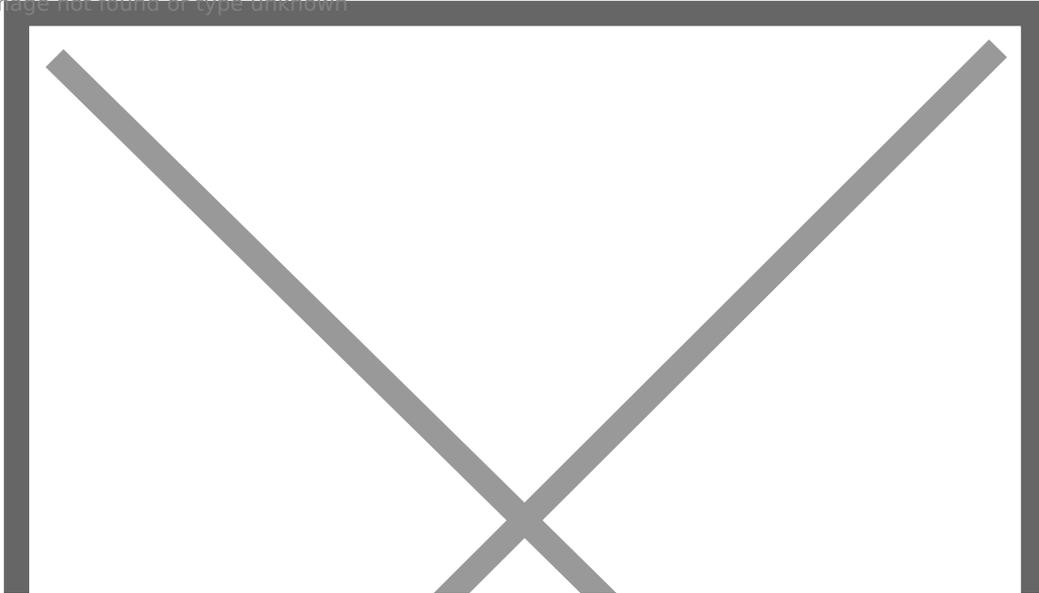

Image not found or type unknown

2.

Click Install Software

Image not found or type unknown

3. Make sure "All" is selected in the left pane of the Filewave Kiosk box and scroll until you find the app you are looking for or type part of the name into the search bar next to "All Items" at the top of the Filewave Kiosk. In this example we are using "Zoom". Click Install.

4. Once app has finished installing, it can be found in Applications → Apps from ISS

5. Open the zoom app and enter the Zoom meeting ID -- it's a six digit number in the zoom meeting link. For example

Join Zoom Meeting

<https://zoom.us/j/123456789>

Meeting ID: 123 456 789
